1. Product and Company Identification

Product number: 933
Product name: Gleme Glass Cleaner Wipes
Effective date: 04-Oct-2010
Company information: Claire Manufacturing Co.
500 Vista Ave.
Addison, IL 60101 United States
Company phone: General Assistance 630-543-7600
Emergency telephone US: 800-424-9300
Emergency telephone outside US: 703-527-3887
Version #: 04
Supersedes date: 31-Mar-2010

2. Hazards Identification

Emergency overview: Will be easily ignited by heat, spark or flames. Prolonged exposure may cause chronic effects.

Potential health effects:
- **Eyes**: Contact with eyes may cause irritation.
- **Skin**: This product may be harmful if it is absorbed through the skin.
- **Inhalation**: Intentional misuse by concentrating and inhaling the product can be harmful or fatal.
- **Ingestion**: Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Target organs: 2-Butoxy ethanol may be absorbed through the skin in toxic amounts if contact is repeated and prolonged and may cause blood damage. These effects have not been observed in humans.

3. Composition / Information on Ingredients

Non-hazardous and other components below reportable levels: > 90

4. First Aid Measures

First aid procedures:
- **Eye contact**: Flush eyes with water as a precaution. If a contact lens is present, DO NOT delay irrigation or attempt to remove the lens. Get medical attention if irritation develops or persists.
- **Skin contact**: Wash off with soap and water. Get medical attention if irritation develops or persists.
- **Inhalation**: Move to fresh air. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Call a physician or Poison Control Center immediately.
- **Ingestion**: Have victim rinse mouth thoroughly with water. Do not induce vomiting without medical advice. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. If ingestion of a large amount does occur, seek medical attention.

5. Fire Fighting Measures

Flammable properties: Runoff to sewer may cause fire or explosion hazard.
Extinguishing media

Suitable extinguishing media

Large Fires: Water. Water spray, fog or regular foam.

Small Fires: Dry chemical, CO2, water spray or regular foam.

Protection of firefighters

Protective equipment and precautions for firefighters

In the event of fire and/or explosion do not breathe fumes. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. If tank, rail car or tank truck is involved in a fire, ISOLATE for 800 meters (1/2 mile) in all directions; also consider initial evacuation for 800 meters (1/2 mile) in all directions. ALWAYS stay away from tanks engulfed in flame. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Withdraw immediately in case of rising sound from venting safety devices or any discoloration of tanks due to fire. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn. Cool containers with flooding quantities of water until well after fire is out.

6. Accidental Release Measures

Methods for containment

Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up

Large Spills: Dike far ahead of liquid spill for later disposal. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean contaminated surface thoroughly. After removal flush contaminated area thoroughly with water.

Never return spills in original containers for re-use.

7. Handling and Storage

Handling

Do not handle or store near an open flame, heat or other sources of ignition. Use only in area provided with appropriate exhaust ventilation. Avoid prolonged exposure.

Storage

The pressure in sealed containers can increase under the influence of heat. Keep away from heat and sources of ignition. Store in cool place. Keep the container dry. Keep in an area equipped with sprinklers.

8. Exposure Controls / Personal Protection

Exposure limits

ACGIH

Personal protective equipment

Eye / face protection

Not normally needed.

Skin protection

Wear appropriate chemical resistant gloves.

Respiratory protection

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

9. Physical & Chemical Properties

Appearance

Sheets.

Boiling point

213.8 °F (101.1 °C) estimated

Color

White.

Flash back

No
10. Chemical Stability & Reactivity Information

Chemical stability
Stable at normal conditions. Risk of ignition.

Conditions to avoid
Heat, flames and sparks.

Incompatible materials
None known.

Hazardous decomposition products
May include oxides of nitrogen.

11. Toxicological Information

Acute effects
Acute LD50: 8992 mg/kg estimated, Rat, Dermal
Acute LC50: 89 mg/l/4h estimated, Rat, Inhalation

Component analysis - LD50

</tbody>
</table>

Sensitization
Not expected to be hazardous by OSHA criteria.

Carcinogenicity
IARC - Group 1 (Carcinogenic to Humans)
Ethyl Alcohol 64-17-5 Monograph 96 [in preparation] (in alcoholic beverages)

Reproductive effects
Possible reproductive hazard.

Teratogenicity
Not expected to be hazardous by OSHA criteria.

12. Ecological Information

Ecotoxicity
LC50 45942 mg/L estimated, Fish, 96.00 Hours,
EC50 36680 mg/L estimated, Daphnia, 48.00 Hours,
IC50 19531 mg/L estimated, Algae, 72.00 Hours,
Components of this product have been identified as having potential environmental concerns.

13. Disposal Considerations

Disposal instructions
Consult authorities before disposal. This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40 CFR 261.4(b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste. Dispose in accordance with all applicable regulations.

14. Transport Information

Department of Transportation (DOT) Requirements

Basic shipping requirements:
Proper shipping name Not Regulated

15. Regulatory Information

US federal regulations
This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

U.S. - CERCLA/SARA - Section 313 - Emission Reporting
