

CL446 TECHNICAL DATA SHEET

RED SPRAY GREASE

PRODUCT DESCRIPTION:

- Lithium-based
- High temperature and pressure resistance
- Prevents water washout
- Withstands harsh chemical environments

Sprays as a deep penetrating liquid that flows into areas which are difficult to lubricate. Then, as the solvent carrier evaporates, the liquid forms into a grease that is resistant to high temperature and pressure. After setting up, the grease will not wash away with water or steam and will resist throw-off and heavy shock load. Withstands acid, salt spray and oxidation.

USE ON:

Wire rope, open gears, linkages, draglines, fittings, winches, cranes, cams, valves, cables, hoists, pulleys and rollers.
